

## **Craig Bradley, Vice President**

Craig is a California native who has spent over 25 years in the high desert. He is the network administrator for the City. He manages the Information Systems Division of all city operations. Craig's current pursuit is information technology and how it can benefit municipal government, but he has also been a business owner, general contractor, and has years of experience in business management.

He is the proud father of six children who are all in school: a junior at Trevecca Nazarene University, and three elementary school students at Ridgecrest Charter School (RCS). Craig also has lots of homework as he is currently completing his master's degree in information systems management through Aspen University, but when he's not studying, he loves music, movies, cooking and J.R.R. Tolkien. In his spare time he is remodeling his home with his wife Heather, who is a homemaker. He is currently serving his second term for RCS Governing Board
